HSN Board of Directors Seeks New Members to serve on the Long Range Planning Committee

Health Sciences North (HSN) is committed to improving the health of northerners by working together to advance the quality of care, education, research and health promotion. Our Strategic Plan sets the course for our future as we aim to build a system that better responds to the needs of our patients and communities and to become a leading and innovative academic health sciences centre.

HSN is seeking talented, engaged members of our community to join in the pursuit of this vision by participating as community members on the Long Range Planning committee of the Board.

The community member perspective on this committee is key as it assists the Board in discharging its responsibilities for renewal of facilities and for overseeing the development and review of the strategic plan.
